

Excelsoft Technologies build upon three beliefs. Firstly, education has an uplifting and transformative impact on the society. Secondly, technology and innovative learning practices make a huge difference in delivering education and learning outcomes. And most importantly, when our customers are successful, we are successful too.

MAHESH JAMBARDI

Chief Operating Officer, Excelsoft Technologies

Excelsoft offers value-added products and services in the E-Learning domain, serving educational publishers, universities and schools, and corporate sectors.

26,000+
hours

E-Learning Courses
