AI-Powered Apps and Services

Excelsoft is not just following the AI trend; we are creating innovative products that inspire change by collaborating with customers to tackle real-world challenges where AI can make a difference.

Real-Time Face and Object Detection

An AI service that identifies and locates faces & objects in real-time video streams, analysing visual data to predict their presence.

Item Metadata Generator

An AI-powered service that automates metadata generation for item banks, usable for new items or existing repositories.

Auto Essay Evaluation

An AI-powered Auto Grade Engine that grades essays instantly and accurately, freeing educators and giving students faster feedback.

Item Similarity Finder

An AI-enabled service that lets authors search for similar items in a repository, useful for creating new items or periodically identifying related ones.

Speech Evaluation

An AI-powered application for evaluating spoken responses and providing real-time feedback, designed for remote learning and corporate training in multiple languages.

Test Forensics

An AI-enabled service that detects test fraud through psychometric forensics, identifying irregularities and providing statistical evidence to support the hypothesis of fraud.

Keystroke Analysis

Keystroke analysis is a vital part of Exam Proctoring software, effectively detecting suspicious behaviour and unauthorized assistance during online exams.

Audio Analysis

Audio analysis in exam proctoring software monitors sounds from the exam taker's environment to detect potential cheating, such as unauthorised communication or external aids.

AI Personas

AI Personas are digital characters that simulate real-world conversations, offering an interactive and adaptive learning experience.

Item Generator

An AI service that creates diverse and engaging questions from any content, saving time and enhancing understanding of complex topics.

About Excelsoft

Excelsoft provides innovative technology-based solutions catering to the needs of corporations, educational publishers, schools, universities, government, and defense sectors. We architect, design, and develop learning environments, assessment tools, digital content, and product solutions for some of the best-known companies and academic institutions worldwide.
